THE A J LANSSEN COLLECTION OF PLANTATION TOKENS OF THE NETHERLANDS EAST INDIES AND BORNEO

Adrian Lansen is co-author of the standard work on these tokens, *Plantage-, Handels-, en Mijngeld van Nederlands-Indie*, Vriezenveen, 2001 (LaWe). He and his collaborator, Professor LT Wells jr., are working on a new definitive edition of the book, having located a number of previously unstudied collections to enable further research in this fascinating field. Many new tokens and varieties have come to light. Use of the abbreviation "var" in the references below indicates a previously unrecorded variety which will be listed in the new book. The LaWe rarity for each token is given after the reference number. It is unusual to give die axes for these tokens, but because Mr Lansen had recorded this information, we decided to include it in the catalogue.

Now retired and looking forward to his 70th birthday later this year, Mr Lansen worked for nearly 40 years as a municipal civil engineer, specialising in roads and waterways, laterly in managerial and supervisory roles. He has long been an active volunteer with various trade union and representation groups in Utrecht and IJsselstein. He is a member of numerous numismatic groups and societies in the Netherlands and Belgium and has published many articles in a wide variety of numismatic journals. He has been in the forefront of the campaign to maintain numismatic expertise at the Geldmuseum in Utrecht. Having taken the decision to sell his main collection of plantation tokens, he says: "After more than 55 years of collecting plantation money, it is now the right moment to do other collectors worldwide a pleasure, by offering this part of my collection in this Baldwin's auction. Sometimes newly discovered unknown plantation tokens come to the market. So collecting these very rare items does not have to stop for me with this auction. I also collect VOC and Netherlands East Indies coins and medals. Once a collector, forever a collector!"

In May 1797 Prince Friedrich was married in London to Princess Charlotte, Princess Royal, the eldest daughter of George III, a few months before inheriting the kingdom of Württemberg. He used his contacts within the Court of George III to have the Thaler, which commemorates his Coronation, struck in London. It would seem the reverse die survived and was used by Pinches as a promotional piece, perhaps at the Great Exhibition of 1851. Another example, in better condition, was offered in Baldwin's Auction 69, May 2011, lot 911.

Mitchiner is of the opinion that this series of coins, which are found across a wide area of southern Karnataka, was introduced by the Western Gangas and continued by the Hoysalas. Some of the Pagodas have one or two varying Kannada characters above the elephant, others have symbols including a dagger or conch, while most have nothing visible above the elephant.

1258 Vijayanagar, Harihara II (1377-1404 AD), Gold ½-Pagodas (3), 1.70g, 1.69g, 1.66g, god with consort / Nagari legend (G 3.1-3.3; Mitch, *Karnatika-Andhra* 412-414). *Good very fine to extremely fine.* (3) £200-250

There are three types of these ½-Pagodas, representing respectively Siva and Parvati, Narana and Lakshmi, Brahma and Sarasvati. Because of the small size of the coins it can be difficult to distinguish between them.

1259 Vijayanagar, Achyutaraya (1530-1542 AD), Gold Pagoda, 3.36g, and ½-Pagoda, 1.70g, Gandabherunda flying upwards (G 10.1.1, 10.1.2; Mitch, *Karnatika-Andhra* 671-672). *Very fine.* (2) £250-350

Sultanantes

- 1262** Sultans of Dehli, Muhammad bin Tughluq (AH 725-752; 1325-1351 AD), Silver ½-Adli(?), 4.55g, *muhammad bin tughluq shah / muhyi sunan khatim al-nabiyyin*, same legends as the ½-Dinar of G&G 354 (denomination appears to be unpublished). *Very fine and very rare.* £800-1000

The gold ½-Dinar of this type weighs 6.4g. Silver 'Adlis are known to be weighing 9.1g and struck at the mints of Dehli and Deogir. While gold 'Adlis are also known struck at Daulatabad and Sultanpur, no gold ½-Adli of this type is so far recorded.

1263

1264

- 1263** Sultans of Dehli, Governor Giyath al-Din Iwad (AH 614-616; 1217-1220 AD), Silver Tanka, 10.87g, Bengal, in the name of Sham al-Din Iltutmish, horseman, *rev* text (G&G B18). *Some deposit, otherwise very fine.* £150-200

- 1264** Sultans of Dehli, Governor Giyath al-Din Iwad, Silver Tanka, 10.86g, Bengal, in the name of Sham al-Din Iltutmish, horseman, *rev* text (G&G B21). *Some deposit, otherwise very fine.* £150-200

- 1265** Sultans of Dehli, Muhammad bin Farid (AH 837-849; 1434-1445 AD), Silver Tanka, 11.43g, dated "804", presumably an error for 840 (G&G D671, this date not noted). *Good very fine and very rare.* £1000-1200

It should be noted that, on coins of the Sultans of Dehli, a small circle always represents "0" and never "5", as it does on Mughal coins from the latter part of Akbar's reign. This means that the date is sure to be an error for 840 rather than being 854 (which would make the coin a posthumous issue during the reign of 'Alam Shah). It should also be noted that the Sultans of Dehli Silver Tankas of this particular period weigh as much as the Rupees that were introduced a hundred years later by the Suris.

- 1266** Sultans of Dehli, Ibrahim Suri (AH 962; 1554-1555 AD), Copper Paisa, Year 962 (G&G D1165); Abu Bakr (AH 791-793; 1389-1390 AD), Billon ⅓-Tanka, 3.57g (G&G D572). *Very fine, first very rare, the second scarce.* (2) £120-150

All coins of Ibrahim Suri are very rare. This is one of the nicest of his copper coins seen by the cataloguer.

- 1267** Sultans of Malwa, Mahmud Shah II (AH 916-937; 1510-1531 AD), Light-weight Silver Tankas (2), 64-Rati standard, 7.51g and 7.46g, Years 925, 931 (G&G M164); Baz Bahadur (AH 963-969; 1555-1562 AD), Light-weight Silver Tanka, 7.03g, no date visible (G&G M241). *Very fine to good very fine, last rare.* (3) £120-150

- 1268** Sultans of Malwa, Muhammad bin Muzaffar (AH 962-964; 1555-1557 AD), Light-weight Silver Tankas (3), 7.10g, 7.05g, 6.68g, Years 963 (2), 964, struck at Mandu, two minor varieties in the way the letters *sin* are written and in the position of the letter *ha* of *shah*. *Very fine and scarce.* (3) £120-150

The identification of this Muhammad bin Muzaffar remains unknown and enigmatic!

Mughal

- 1269** Akbar (AH 963-1014; 1556-1605 AD), Light-weight Silver Tankas (2), Malwa, in the name of Akbar, 7.01g, 7.06g, no mintname visible, date partly visible on one coin (similar to KM 75.2). *Both very fine.* (2) £60-80

- 1270** Rafi al-Darjat (AH 1131; 1719 AD), Rupee, Gwalior, AH (11)31, ahd (KM 405.7). *About extremely fine and slightly toned, scarce.* £100-150

- 1271** Muhammad Shah (AH 1131-1161; 1719-1748 AD), Copper Dam, 20.91g, Khambayat, no date visible (KM 430.13). *Good fine and rare.* £60-80

- 1272** Shah 'Alam II (AH 1174-1221; 1759-1806 AD), Murshidabad, Rupees (2), in the name of Shah 'Alam II, Year 12, one with AH date 118(6?) partly visible. *Very fine.* (2) £150-200

These Rupees are stylistically slightly different from other Rupees of the period and have a different five-petalled flower symbol to the right of the regnal year. It is known that the French struck Murshidabad Rupees at Chandernagor during this year so it is possible that these are French rather than British issues. However, both Rupees have the crescent mark in the middle line of the obverse that the British issues also have.

- 1273** Muhammad Akbar II (first reign, AH 1203; 1788 AD), Silver Rupee, Shahjahanabad (Delhi), AH 1203, ahd (year 1), *obv* titles of Muhammad Akbar II and date (not listed in KM; Bhandare 2; only three specimens are known, see Spink-Taisei Singapore Auction 14, lot 1060, and Baldwin's Auction 45, 2006, lot 1340 for the others). *Good very fine and extremely rare.* £2000-2500

The puppetry reign of the Prince Muhammad Akbar lasted for only for two days, 15 October 1788 to 17 October 1788. The Hijra year 1203 was a period of turmoil and change for the Indian Emperors. It saw the rule of Delhi changing from the hands of Shah Alam II to Bedar Bakht, from Bedar Bakht to Muhammad Akbar II and from Muhammad Akbar II to Shah Alam II again. The young Prince Akbar II was enthroned by the Rohilla chief Ghulam Qadir. Mirza Akbar Shah wrote to Nawab Faizullah Khan: "...on 14th Muharram (15th October) the imperial throne was illuminated by our august accession and the sound of the kettle-drum of felicitations reached the ears of the inhabitants of earth and the world above ... the face of Gold and Silver coins shone brighter than the sun and the moon by the effluence of the impression, of our name on them". This reign was very short lived when Ghulam Qadir ran away and Mahadaji Scindhia captured Delhi to reinstate the blind emperor Shah Alam II to the throne on 17 October 1788.

It is very interesting to note that the emperor has left us a written record of the fact that *Khutba* was read and coins were struck in both metals, gold and silver, for two days and that both such coins have been discovered.

This coin formed the part of Tulabharam issues struck by the Maharaja for ritual purposes. The Maharaja was the caretaker of the famous Padmanabhaswamy Temple in Travancore that, in July 2011, yielded one the largest treasure troves of gold coins and jewellery known. Press have reported the treasures value to be nearly \$20 billion. The panel of experts, appointed by the Supreme Court of India, found gold coins weighing a total of 530kg amongst which were in the region of 17kg of gold coins from the East India Company period and 14kg of coins minted in Travancore.

East India Company

- 1287** East India Company / Awadh, Gold Mohur in the name of Shah Alam II, AH 1187, Year 15, Shah Alam's legends with royal umbrella, *rev* usual *julus* formula with year 15, fish mark and mint name Allahabad. Very fine and extremely rare. £4000-5000

At the accession of Shah Alam II, the city and fortress of Allahabad was in the possession of the Nawab Vizier of Awadh. From 1765 to 1771 the Mughal Emperor was in residence in Allahabad. The Allahabad coins normally belong to the East India Company from AH 1198 onwards. The East India Company took over Allahabad from the Mughals in 1771. It sold the town to the Awadh again in 1773. This year 1773 corresponds to AH 1185 and Regnal Year 15 of Shah Alam II. It is therefore possible that the above coin was issued under the British authority. The introduction of fish mint-mark on the coin is also interesting in a way because such a mark appears only on the East India coins of Year 25 and 26. This mark has not been found on any other coins of Allahabad. For historical accounts see KM 12th edition, p.1193.

- 1288** Shumshary Rupee, Allahabad, in the name of Shah 'Alam II, AH 1216 Year 26, *obv* upright sword, *rev* fish. *Very fine and very rare.* £500-600

Allahabad fort was ceded to the EIC on 21 February 1798 and the Allahabad district in 1801. The mint of Allahabad, which had previously been operated by the Mughals and the Nawab of Awadh was re-opened by the British in May 1802 and officially closed a couple of years later. Thus the dates for British issues come within the period AH 1216-1218. It will be noted that the present coin retains the frozen regnal year of 26. Dr Stevens, in his article on this subject in JONS 190, was, at the time, aware of only one specimen of this issue.

The Soho Mint was producing a number of gilt proof examples of these tokens and one can imagine all Soho products being made available in gilt proof.

Pridmore states that the 1854 coins only occur as Proofs and were struck from matrix dies engraved by William or Leonard Charles Wyon, usually designated as Patterns whose design and denominations were sanctioned by Act XVII, 1835. Modern restrikes occur of the 2- and 1-Mohur in gold. Although Pridmore states that these are Proofs, the fact remains that this design never saw any circulation and are therefore really patterns. Unlike most British Indian coins, this particular series has a plain truncation which is perhaps due to the death of William Wyon, the chief engraver of British India coinage at that time. It is probable that L C Wyon completed the design of this series after his father's death and sent the matrices, punches, dies and a specimen set of the design to India at the end of 1853.

Hans Reinhart the Elder was born in Dresden around 1510 and was active in Torgau, prior to living in Leipzig from 1539 until his death in 1581. Evidence of his career begins in 1535 when he produced a pair of carved limestone portrait reliefs of Elector Johann Friedrich (1532-1554) and his wife Sibylle of Cleves, for the entrance to the staircase at Schloss Hartenfels at Torgau. Writing in *The Medal* no.56, Spring 2010, J Chipps Smith likens Friedrich's limestone portrait to Reinhart's medal of the same sitter, lots 419, 420 and 421 below, and comments that both portraits are based on a likeness supplied by Lucas Cranach the Elder. It is believed that from 1544 Reinhart was obliged to concentrate on his work as a goldsmith after officials from Leipzig's Goldsmiths Guild argued that producing medals in silver made him subject to their regulation. While Reinhart challenged this he lost his case and was ironically reduced to becoming an apprentice with Georg Truetler for five years. Amongst the very restricted amount of new medallic work he produced in this period is his masterpiece the Trinity, lot 418, also known as the *Morizpfennig* as it was commissioned by Duke Morritz (elector 1547-1553).

This is a record of what is probably the earliest medal relating to the EIC. The original was awarded in gold, at the value of £20, in 1668 to Sir George Oxinden, President of Surat (1622-1669) in recognition of his considerable civil and military services. Some accounts specifically relate the medal to his defence of the Company's treasures and possessions from Sivajee and the Mahrattas in 1664. Another account awards the medal to his nephew (Sir) Streynsham Masters who had been sent to India to work with his uncle. In 1670 Sivajee's army attacked the factory at Surat, but Masters with a small Garrison of thirty men successfully defended it. The medal was described as showing the "Arms of the Governor and Company of Merchants of London trading to the East Indies, with crest, supporters, and mottoes". The reverse was believed to have been blank for an inscription. The whereabouts of the Gold Medal is not known.

An article by B Thomas Curtis, "A Design Procured - The Bath Agricultural Society's Bedfordian Medal Competition, 1802", *The Medal*, Autumn 1991, together with relating correspondence, detailing the history and importance of the drawing is sold with the lot. The dies for the actual medal were engraved by John Milton with the reverse design by Catharine Maria Fanshaw (BHM 547; T Stainton, John Milton, Medallist, 1759-1805, *BNJ*, 1985, No 25). The minutes of the Society indicate that the medal was to be struck in gold to the value of 20 Guineas, and a letter of 11 January 1805 details payment to John Milton for such a medal to be awarded to the agricultural reformer and secretary of the first Board of Agriculture 1793-1822, Arthur Young, and continues, "I am also to request you to immediately prepare a similar medal for Miss Fanshawe with the following inscription about the rim: THE BEDFORDEAN COMMITTEE TO MISS CATHARINE FANSHAW FOR PRESENTING THE BEST DESIGN FOR THE REVERSE OF THE MEDALLION 1803". - 2126 Exploration, Polar, Captain Sir John Franklin RN (1786-1847), Naval Officer, Arctic Explorer and (1836-1843) Lieutenant-Governor of Van Diemen's Land (Tasmania), cast bronze medallion Portrait Plaquette, by Pierre Jean David d'Angers (1788-1856), produced by the electrotype process, his bust right in high relief, on plain background, signed below truncation "DAVID 1829", approx 135mm (cf Reinis 185), in original papier-mâché frame with old informative label attached. *Good very fine and extremely rare.* £400-600**

The frame carries a [damaged and hard to read] label fixed to the back stating, "Medallion of Sir John Franklin, RN, KCH, FRS, FGS, ... Executed by David the well known French sculptor. This likeness commanded by Louis Philippe the King who had seen much of Sir John then Lieut Franklin in early life during his visits and on his accession to the throne of France Sir John being then in Paris. It was an especial request that he should sit to David and this medallion was the result. Given to me Decr. 1884 by Mrs Charles xxxxxxx [there follows three lines that have been deleted], C. A. [?] Barwashy Oxford 1884".

The cataloguers suggest that the medal was one of a limited number produced in England for family or friends. David had died in 1856 and so, in England, the newly invented process of electrotyping would have been ideal for the manufacture of a small number of copies.

Franklin was born in Spilsby, Lincolnshire, joined the Royal Navy at 15 and served at the battles of Copenhagen and Trafalgar, as well as exploring the coasts of Australia with Captain Matthew Flinders. His first voyage to the Arctic, under Captain Buchan, was in 1818, when he was given command of the brig *Trent*. This was followed by a three year voyage charting the Northern coast of Canada. In 1823 he made a further trip down the Mackenzie River to the Beaufort Sea. He was knighted in the Royal Guelphic Order by King George IV in 1828.

After seven years as Governor of Tasmania, he returned to England to take up the command of a British Expedition to chart the Northwest Passage. Franklin left England in May 1845 and never returned. After many expeditions some remains were found in 1850, whilst further remains were found some four years later, confirming what all had feared, the crew had perished from hunger, cold and disease after the ships had become icebound. The body of Sir John Franklin was never recovered.

Purchased David Foord-Brown Antiques, Cuckfield, January 1996.

The onus of proving a lot to be not genuine or authentic or to have been so wrongly described shall lie with the buyer. Proof of the inability of any recognised expert or authority to express a definite opinion shall not discharge such onus. If the buyer shall discharge such onus, the auctioneers

shall rescind the sale and repay to the buyer the price paid by him. Save as provided herein, A H Baldwin & Sons Ltd shall not under any circumstances whatsoever be liable for any costs, expenses or damages (whether direct, indirect, special or consequential) incurred by the buyer in respect of any lot, whether or not as a result of any fault, imperfection, error or description or lack of genuineness or authenticity, including but not limited to loss of any kind of profit whatsoever.

(c) The Auctioneer does not accept the opinions of commercial third-party grading services. Refusal of such a service to grade a coin, or a difference of opinion on the grade of a coin, is not acceptable grounds for the return of a lot. Statements and opinions formed by third-party grading services based on their own independent research do not affect the auctioneers rights and conditions.

8. All lots are reserved at 80% of the lower estimate, with auctioneer's discretion.

9. Save as provided in the preceding paragraph of these conditions buyers must satisfy themselves as to the accuracy of their purchases at the time of delivery. A H Baldwin & Sons Ltd cannot be held responsible for any discrepancy which might be discovered after the lots have been removed from either the auction room or the auctioneers' premises.

10. A H Baldwin & Sons Ltd act solely as agents and shall not be responsible for any default by either the buyer or seller or for any action or claim which may arise in respect of any lot.

11. Each lot shall be held at the buyer's risk from the fall of the hammer. The lot or lots shall be removed by the buyer within seven working days after the date of the sale. A H Baldwin & Sons Ltd reserve the right to charge storage and to resell by auction or privately, without notice to the buyer, any lots not so removed.

12. Any part of the purchase price left outstanding after the auction pursuant to Condition 5 shall be paid in full within thirty days of the date of the auction. Without prejudice to any other rights, A H Baldwin & Sons Ltd reserve the right to charge interest on any overdue payment at the rate of three per cent per month. Seven working days' notice must be allowed for clearance of personal cheques before delivery can be made unless prior arrangements have been made with A H Baldwin & Sons Ltd. A 2% surcharge will be applied to credit card payments.

13. Buyers accepting commissions from third parties do so at their own risk and will remain responsible to A H Baldwin & Sons Ltd for full settlement according to these conditions.

14. Baldwin's are not responsible for any inaccuracies in information and results given verbally during or after the auction nor any errors in reports subsequently produced.

15. By making a bid the buyer acknowledges his acceptance of these Conditions and shall be bound by them.

16. If any buyer fails to comply with any of these Conditions, the lot or lots in respect of which the failure is made may at the discretion of A H Baldwin & Sons Ltd be put up again and resold. The damages recoverable from the defaulting buyer shall include, but not be limited to, the auctioneers' expenses and commission in respect of the resale and the amount (if any) by which the price obtained on the resale is exceeded by that obtained on the first sale.

17. A variation of these Conditions shall only be binding on A H Baldwin & Sons Ltd and the vendor if it is made in writing and signed by a duly authorised representative of A H Baldwin & Sons Ltd.

18. These Conditions shall take effect and be construed in accordance with the provisions of English law.

Information for New Bidders

Admission to the auction and participation is free once you have a copy of this catalogue.

You are encouraged to view the lots before the sale and attend the auction in person. Viewing of the lots may be done at your leisure, by appointment, in the week prior to the auction.

The catalogue is printed with estimates alongside each lot. This is intended as a price guide for interested bidders. Although it is our opinion of the value of the lot, bidders should be clear in their own minds what each lot is worth and should be prepared for prices to rise if there is competition for the lot. All lots can realise hammer prices both above and below the printed pre-sale estimate. In normal circumstances, each lot is reserved at 80% of the lower estimate and bids below this are very unlikely to be accepted.

Bidding may be carried out by you in person or by a representative of your choice (please ask a member of Baldwin's staff for more information on this). To collect your bidding number visit the registration table outside the auction room. Please ensure that you arrive in plenty of time for the lots you are interested in. A time guide is printed at the front of this catalogue and approximately 200 lots are sold per hour. However, bidders are reminded that this is a *guide only* and Baldwin's cannot be held responsible if you miss your lot.

Alternatively, bids may be submitted by filling out the bidsheet found in this catalogue. They must be submitted *in writing* either by post, email or fax to the Baldwin offices to arrive not later than 24 hours prior to the sale. Please include a street address in your email. Bids left by telephone are at the bidder's risk. Baldwin's will accept no responsibility for errors in the execution of bids submitted to a member of staff by telephone. It is recommended that such bids are confirmed in writing immediately.

Baldwin's regret that they are unable to confirm receipt of faxed or emailed bids sent up to 3 days prior to the date of the auction.

Absentee bids left with Baldwin's Auctions are executed by the auctioneer against all other bidders. Participants should supply their highest bid for each lot. Lots will be purchased as cheaply as possible against all competition. Absentee bidders will not be contacted prior to the auction if their top bid has been exceeded. Bidding begins below the low estimate and if yours is the only bid you will win the lot for the opening price no matter what your top bid may be. In the event of identical absentee bids, the earliest received will take priority.

If you are bidding in our auction for the first time, please give us the name of another dealer or auction house that knows you well as a reference. If you are unable to do this, we can only send you your lots after your invoice has been paid in full.

Invoices will be prepared on request during and after the auction. These will indicate the total due to A H Baldwin & Sons Ltd (including postage and insurance costs). Invoices will be sent *by Royal Mail* to bidders approximately two days after the auction has ended. Baldwin's regret that invoices cannot be sent by email. Full prices realised will be included with each invoice posted and are available on request shortly after the auction.

The price paid by the bidder is the hammer price plus 24.00% buyer's premium (including VAT). Book lots are not subject to VAT. Lots exported outside of the European Union may not be subject to VAT where A H Baldwin & Sons Ltd hold proof of export. Ask Baldwin's for more details where this may apply to you.

For lots sent by post a standard minimum charge of £6.20 will be applicable for UK customers. Postage and insurance will be charged at cost for larger shipments and those outside the UK (minimum £7.80). Lots will be sent by Royal Mail, recorded and insured delivery. Bidders are encouraged to arrange their own collection/shipment wherever possible.

Information for Potential Sellers

We produce quality catalogues which are an expertly researched selling tool for your collection. These can be personalised to create a lasting record.

Our catalogues reach a vast international clientèle which is constantly augmented by our presence at international coin shows including London, New York, Munich, Singapore and Hong Kong. This promises favourable results when we auction your coins.

Our seller commission begins at 15% (+VAT) but may be reduced for items of high value or whole collections. Please ask a member of staff for more details. This is the only charge that applies. We make no charge for photography, storage or insurance and there is no fee for lots that do not sell.

Baldwin's are pleased to offer free verbal valuations of your coins, medals and banknotes and also clear independent guidance for their sale by auction or direct purchase.

At the point of consignment you will receive a signed receipt which details our conditions of sale. You will receive a full listing of your items in the sale and a free copy of the printed catalogue at least three weeks before the sale date.

Payment to sellers takes place between 30 and 45 days after the date of the sale. Consignors are not required to pay any money before the auction as all charges are deducted from the final settlement.
