# THE NEW YORK SALE GROUP

Formed in 1998 the New York Sale partnership currently comprises three of the most prestigious numismatic auction houses in the world, who together form a powerful international force in the numismatic industry. Original partners A.H. Baldwin & Sons Ltd (London, UK) and M&M Numismatics Ltd (Washington DC, USA and Basel, Switzerland) were subsequently joined by Dmitry Markov Coins & Medals of New York (USA) in 2000. The partnership has expanded to hold two multi-million dollar sales per year, specializing in Ancient and World coins and Russian Coins and Medals.

Held each year in conjunction with one of the largest and annual numismatic events (The New York International Convention) the group holds two auctions on Wednesday and Thursday of the week long conference in January and has held over 22 auctions since its conception. By pooling a vast array of experience and knowledge the group strives to offer the best service to their clients and customers, whether buying at the auction or as a potential vendor for the sale, any one of the partners can offer advice. Catalogues are produced to the highest possible standard and may be used as a useful reference for serious buyers and coin collectors.

Over the years the partnership has aimed to achieve the best possible prices for their vendors and undertake a marketing strategy which is proven by the excellent results achieved year upon year. In 2004 the sale of an 1825 Russian silver Rouble for US\$603,750 broke the world record price achieved for any non-US coin sold by public auction and since then lots have regularly attained prices well above estimate. In 2008 results from the Italian section of the sale made a staggering US\$1,118,400, four times the pre-sale estimate. Even in the current economic climate recent results have spoken volumes about the ability of the group to attract discerning buyers for quality lots.

**A. H. Baldwin & Sons Ltd, London** Founded in 1872, A. H. Baldwin & Sons Ltd set up their in-house auction department 'Baldwin's Auctions' in 1993 and have since expanded to hold regular auctions of all numismatic material in London, New York, Hong Kong. Baldwin's have been based in central London for over 100 years and are the last remaining traditional coin dealers in London offering an old-fashioned personal service to help you build your collection with confidence.

The Baldwin's specialist team has worked as advisors and cataloguers of coins for many of the most prestigious auction houses in London and abroad for decades. Our extensive library, comprising thousands of reference books, allows us to research thoroughly all aspects of numismatics from Ancient times to the present day, with the main focus including English, European, Russian, Islamic, Indian, the Americas and Oriental coins, as well as commemorative medals, for auction and direct sale. Today our permanent staff of numismatists include: Edward Baldwin (European, Colonial, Oriental and Russian coins), Dimitri Loulakakis (English, European, Latin American and Modern Greek coins), Steve Hill (English coins), Graham Byfield (Indian and Islamic coins and Commemorative Medals), Paul Hill (Ancient coins), Seth Freeman (British Tokens and Banknotes), David Kirk (Military Medals), Caroline Holmes (Numismatic Books), and Laurent Stainvurcel (European coins).

The merger of Baldwin's with Noble Investments (UK) PLC in 2005, and the acquisition in early 2008 of Apex Philatelics Ltd., has seen the company expand to become a formidable market player offering a complete package for any coin or stamp collector or investor. A. H. Baldwin & Sons Ltd is one of the largest numismatic houses in Europe and the only numismatic trading company listed on the London Stock Exchange.

Baldwin's has been a member of the International Association of Professional Numismatists ([IAPN](#)) since 1969, and is also a member of the British Numismatic Trade Association ([BNTA](#)), the British Antique Dealer's Association ([BADA](#)) and individuals on their staff are members of the American Numismatic Association ([ANA](#)), the Royal Numismatic Society ([RNS](#)) and the British Numismatic Society ([BNS](#)).

## DMITRY MARKOV Coins & Medals

### **Dmitry Markov Coins & Medals, New York**

Dmitry Markov's interest in coin collecting goes back to 1972. In 1985 he graduated from the History Department of the Kiev State University (Ukraine) and received his M.A. for the thesis - "*Monetary Circulation in Ancient Russia (8th to 13th cent. A.D.)*". His broad interests in numismatics include Russia, Ancient Coinage especially those of the Northern Black Sea area, as well as Islamic Central Asia and Caucasus. He has published a number of research articles in these fields. After coming to the U.S. in 1990, Dmitry Markov founded "Dmitry Markov Coins & Medals," a well-known leading firm dealing with medals and coins. Dmitry Markov's continuing research on Russian, Ancient and Islamic coinage makes an invaluable addition to his very extensive auction catalogs. He had issued over 40 illustrated reference catalogues, as well as many other fixed price lists. Dmitry Markov Coins & Medals have been an elected member of the International Association of Professional Numismatists ([IAPN](#)) since 2000. Also a Life Member of the American Numismatic Association ([ANA](#)), American Numismatic Society ([ANS](#)), a Life Member of the Orders & Medals Society of America ([OMSA](#)), as well as many other trade and collectors associations.

## M&M Numismatics Ltd.

### **M&M Numismatics Ltd, Washington DC & Switzerland**

Münzen und Medaillen AG (M&M) was established in Basel, Switzerland in 1941. The founders of the firm were the brothers Dr. Erich Cahn and Dr. Herbert Cahn, professional numismatists, together with several eminent Swiss collectors.

M&M became well-known in the post WWII period for its monthly fixed price lists, a series which continued for over 60 years. The firm has also conducted over 100 auctions, including great collections such as the Rosen (Ancient electrum), Bally (Roman), Kohlmoos (crown-sized coins) Sutter (Italy and Sicily) and many others. In partnership with Leu Numismatik, M&M also auctioned the Kunstfreud and Niggeler collections.

In the 1990s, Dr. Hans Voegtli assumed responsibility for Ancient coins and Dr. Bernhard Schulte for Medieval and modern coins. In 1996, M&M Numismatics opened in Washington, DC with Lucien Birkler as managing director. In 1997, M&M Deutschland opened in Weil am Rhein, Germany, with Joachim Stollhoff as managing director. The Basel office was closed in 2004, but both the American and German firms remain active. Today both companies continue the long tradition of serving collectors and look forward to serving your numismatics needs now and in the future.

# East Prussian Coinage of Elizabeth I

## A Collection of Russian Coinage for East Prussia

Involving all of Europe's powers at the time and fought on a global stage, the Seven Years War (1756-1763) was arguably the first world war. Friedrich the Great's emergent Prussia, with one of Europe's best armies, and Great Britain, with Europe's largest navy, joined with a coalition of smaller German states to battle an alliance of France, Austria, Russia, Sweden and Saxony.

On the eastern front, the Russian army under Field Marshal Stepan Feodorovich Apraxin defeated the Prussians on August 30, 1757 at Gross-Jagersdorf. The gates of East Prussia were wide open, but Apraxin inexplicably did not take advantage of his victory and went into winter quarters. An irate Elizabeth Petrovna transferred command of her military forces to General Villim Fermor. On January 16, 1758, Fermor with a Russian army of some 30,000 troops marched from Memel into East Prussia and the area was quickly occupied and annexed.

At the outset of the occupation, the Russian army found itself suffering great financial losses. Coins of a number of German States were circulating in East Prussia, and these coins were quite often of low-grade silver with varying weights. To compound the situation, counterfeit coins flooded the marketplace. Thus the Russian army found itself taking in debased coinage and paying out in good silver. To alleviate the situation, a special Russian coinage utilizing the Taler system was approved for East Prussia.

Designs for this new coinage were created by A.T. Bolotov and dies cut by Wolf, the engraver at the Königsberg mint. Production was done both at the mints of Königsberg and Moscow and coins were produced from 1759 to 1762. For the last year, only 6 Groschen from the Krasny mint are known (Krasny mint records show the striking of 64,000 one-third Taler pieces, but no examples are known). Despite a mintage of 120,000 pieces, these 6 Groschen are very rare, a rarity explained by the year's events.

With the death of the childless Empress Elizabeth, her chosen heir and nephew Peter of Holstein-Gottorp gained the throne. In context to the Seven Years War, Elizabeth's death is often called the "Miracle of the House of Brandenburg." A great admirer of Prussia's King Friedrich II, Peter withdrew Russia from its wartime alliance, returned to Prussia the territories previously annexed and ceased production of the special Russian coinage for East Prussia. Agents for King Friedrich II were sent to systematically search out and buy up all the offensive Russo-Prussian coinage wherever it could be found. Not surprisingly, the agents were also instructed to seek out and purchase any medal for the Russian victory over the Prussians at the Battle of Kunersdorf (Friedrich's most devastating defeat).

*This rare and unusual overdate-overinitials coin poses a mystery as to the actual sequence of dies and production. Stepan Afonasiyev (CA) was mintmaster from 1764-1770. At some point at the end of 1769, it would seem that new dies were prepared for the next year which included his initials (less likely is the scenario that these new dies were prepared during the first weeks of 1770, but not impossible). Hence it was assumed Afonasiyev would be mintmaster in 1770. There are 1770 Rubles with the initials CA, but these are quite Rare and we must surmise that the emission was very small or that most of it was destroyed. At some point in 1770, Yakov Chernishev became mint master. So Afonasiyev died in office, had to leave unexpectedly or was removed abruptly. Chernishev had no time to prepare new dies, but production was required, so he took the 1769 dies and cut the new date and his initials over the previous. Why didn't he use the 1770 CA dies and just cut over the initials? Asking this question would lead us to believe that these dies had already been destroyed. The other possibility, and that is an outside one, is that after the overdate overinitial issue, when new dies were cut, the old initials CA were used in error. And when the error was discovered, the emission was stopped and the die removed from usage. This intriguing coin certainly welcomes further research.*

## Medals of Alexander I

1273

1274

1273

- 1273 Medal. Bronze. 23 mm. By J. Laroque. **From Anna Dorothea of Courland to her friends, 1812.** Classical-style bust left of the lovely young Baltic noblewoman / French legends. *Very rare* medallion that is related to Polish, French and Russian history. Café au lait.

Choice extremely fine \$ 350

*A Gräfin of the noble German Baltic Medem family, Anna Charlotte Dorothea von Medem was born in 1761 at Mezotne Palace in what is now Latvia. On her father's side she was a descendant of Konrad von Mandern, Master of the Livonian Order (1263-1266). In 1779, this young beauty married Duke Peter von Biron of Courland. She would bear him six children, one, though – her namesake Dorothea, illegitimately.*

*Beset at home dealing with political difficulties, Peter von Biron found it necessary to send his young wife away on frequent diplomatic missions. Separated from her home and husband for long periods, the vivacious Anna Dorothea became involved in love affairs with various men, including the French statesman and noted womanizer Talleyrand and Alexander Batowski, a Polish nuncio, who was most likely the father of her last daughter Dorothea (who Peter von Biron nonetheless acknowledged as his own).*

*Upon the marriage of her daughter Dorothea to Talleyrand's nephew Edmond de Talleyrand-Perigord in 1809, Anna Dorothea moved to Paris. It is possible that this medal served as a medallion calling card for the Dutchess in what would be a whole new society for her.*

### *Marriage Commemoratives of 1841*

2:1

In 1838, Grand Duke Alexander Nikolaevich, heir to the Russian throne became smitten with Princess Maximiliane Wilhelmine Auguste Sophie Marie of Hesse-Darmstadt, then only 14. By the summer of 1840, Alexander decided he wished to marry her. The princess arrived in St. Petersburg in September, was immediately popular with the people and was soon rechristened Maria Alexandrovna. On the 16th of April, Alexander and Maria were married in an elaborate ceremony. Three months earlier, the Emperor ordered that designs be prepared by the State Mint for medallic issues to honor the marriage. Heinrich Gube duly responded. The Wedding in fact would become the most numismatically celebrated events in Russian history – producing a Medallic Rouble and Medals, in three metals and in a number of varieties. The advent of mint-produced commemorative issues in Russia had occurred only seven years earlier with the 1834 Alexandrine Column and in 1841 commemoratives were still a most exciting novelty

*A Corsician noble and diplomat, Count Pozzo di Borgo (1764-1842) was originally a boon friend and companion to the Bonaparte brothers, his fellow Corsicans, Joseph and Napoleon. But by the 1790's, their political paths diverged and Charles-Andre found himself in opposition to the Bonapartes. Through the influence of Prince Adam Czartoryski, Charles-Andre entered the Russian diplomatic service in 1804. The Tilsit alliance between Russia and France in 1807 however interrupted his career. In 1812, Tsar Alexander recalled Pozzo di Borgo to Russian service, and Charles-Andre was made a general in the Russian army. When the Allies occupied Paris in 1814, he served as commissary general to the provisional government, and under the First Restoration, he was the Russian Ambassador to France. After the Second Restoration, Charles-Andre remained in France and was instrumental in smoothing out the reluctance of Tsar Nicholas to accept the accession of Louis-Philippe. In 1835, Pozzo di Borgo was abruptly transferred to the London embassy as St. Petersburg had grown to believe that he favored French interests too much. In 1839, Charles-Andre retired from service and returned to Paris.*

*A consummate diplomat, Baron Roman Romanovich Rosen (1847-1921) was the Russian minister in Tokyo at the outbreak of the Russo-Japanese War. When President Theodore Roosevelt attempted to mediate the hostilities, Rosen was appointed as the new Russian ambassador to the U.S., and as Sergei Witte's deputy within the Russian peace delegation. In this capacity, he traveled to the Portsmouth naval station in Kittery, Maine for the peace negotiations. On September 5, 1905, Rosen and Witte signed the peace agreement for Russia along with their Japanese counterparts at the Hotel Wentworth in New Castle, New Hampshire bringing a formal end to the Russo-Japanese War*

## The Walter Alexander Mooromsky Collection

Walter Alexander Mooromsky (1927-2003) was born April 29, 1927, in China, to Russian parents. His father, Alexander Petrovitch Mooromsky, had been born near Penza, south-east of Moscow, at the end of the 19th century. The exact date is a mystery as he lied about his age to get in to the Tsar's Army, and we think gave a different year when he emigrated to San Francisco in 1930. The family considers 1898 to be his birth year. In 1917, he joined the White Army to fight the Bolsheviks. A fervent Monarchist to the day he died, he never believed that any of the Romanov Royal Family escaped the slaughter in July 1918 – having been in the first White Army to reach Ekaterinburg after the Royal Family was murdered and having seen the site. He continued to fight during the Civil War through 1921, serving with pride under General Molchanoff. With the fighting coming to an end, the remnant of the White Army in Eastern Russia realized they needed to leave their beloved Motherland and they walked across the Gobi Desert to escape the Reds. Only a fraction survived this journey. Arriving in Harbin, China, Alexander met Zoya Anoufrovna Rogulsky and they were married there. Their son Vladimir Alexandrovitch was born in Tientsin. As a family they emigrated to California, arriving in San Francisco – Angel Island – in March 1930. At this point Vladimir Alexandrovitch was renamed Walter Alexander.

Walter attended Lowell High School and graduated from the University of California Berkeley. He served proudly in both the U.S. Navy and the U.S. Army in WWII and Korea. He was a long time employee and executive with Levi Strauss & Co., which moved him to Brussels, Belgium, in 1962 to set up a European marketing and distribution operation. He remained in Brussels for 16 years, having made a second home there. He returned to the U.S. in the early 1980s via a three year stay in Montreal, Canada. His interests were many, as were his passions and loyalties. He was deeply proud of his Russian heritage, always finding the time to participate in various Russian activities. He carried on his family's love and honor of Mother Russia, and started his collection of Russian orders and decorations while living in Belgium in the 1960s and 1970s. There he had ready access to some of the great auction houses and dealers of Europe, enabling him to build his collection. To him this collection was about keeping alive the memory and honoring the country of his ancestors. It is his family's hope that these pieces will continue to do so in the hands of others.

Lots in the section below that are from the Walter Alexander Mooromsky collection are marked with the symbol ☘

**Batumi Region. Time of the British occupation, 1918-1920. Medal for Bravery.** Silver. 28 mm. Vernon Collector's Guide to OMD, 1st Edition, 1990, p. 324, (this medal) to the most current 4th edition, 2000, p. 428 (this medal); this unique medal was also published in the *Journal of the Orders and Medals Society of America* many years ago. Formed from a Nicholas II Medal for Zeal, IV Class. The Medal for Zeal obverse has been planed down and replaced with an engraved palm tree within a circle and the legend: 'БАТУМСКАЯ ОБЛАСТЬ' (*Batumi Region*). The original Nicholas II reverse has had the word for 'Zeal' smoothed away and re-engraved with the word 'ХРАБРОСТЬ' so that it now reads 'For Bravery.' This clearly shows that this piece was created as an Award at the time, and is not a 'love token' or 'trench art' type of souvenir. Integral loop. Unique, and a fascinating and important medallic document from the time of the Russian Revolution.

8. When identical mail bids are received, the lot will be awarded to the earliest bidder. We cannot accept unlimited bids, however we will generally start the bidding on each lot 5% over the next highest bid, thereby attempting to purchase the lot under your bids. Written bids will be treated as limits for each lot. Bidders should assume that all lots may have reserves which are below the estimates.
9. Estimates in this catalogue are not limits or reserves but reflect the actual market prices and are intended as a guide for bidders. The actual prices realised may be higher or lower than these valuations. The starting price will be about 80% of the estimates, unless there are higher offers.  
NO BIDS FOR LESS THAN ABOUT 80% OF THE ESTIMATES WILL BE ACCEPTED.
10. All lots delivered in New York are subject to applicable Sales Tax.
11. All lots are subject to a 17% Buyer's fee which will be added to the hammer price.
12. Full settlement is due within thirty (30) days of the sale taking place. After that time, any amounts owing will be subject to interest (2% per month).
13. Any dispute regarding this auction shall be adjusted only by a court located in the DISTRICT OF COLUMBIA. All bidders submit themselves to the personal jurisdiction of these courts for this purpose.
